

HASIL RUN PROGRAM PHP DENGAN OOP DAN PDO

A. OOP

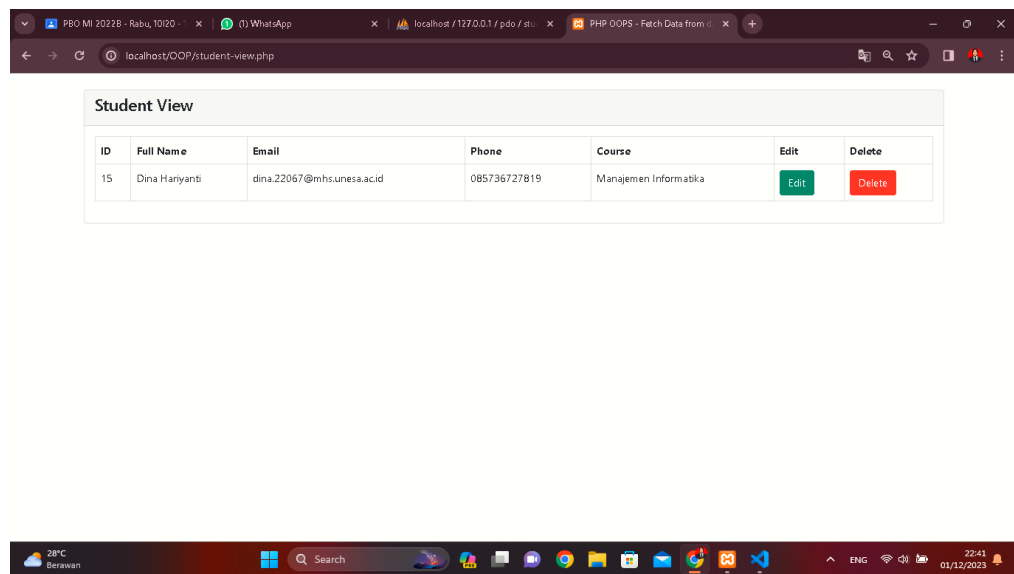

1) Tampilan Awal

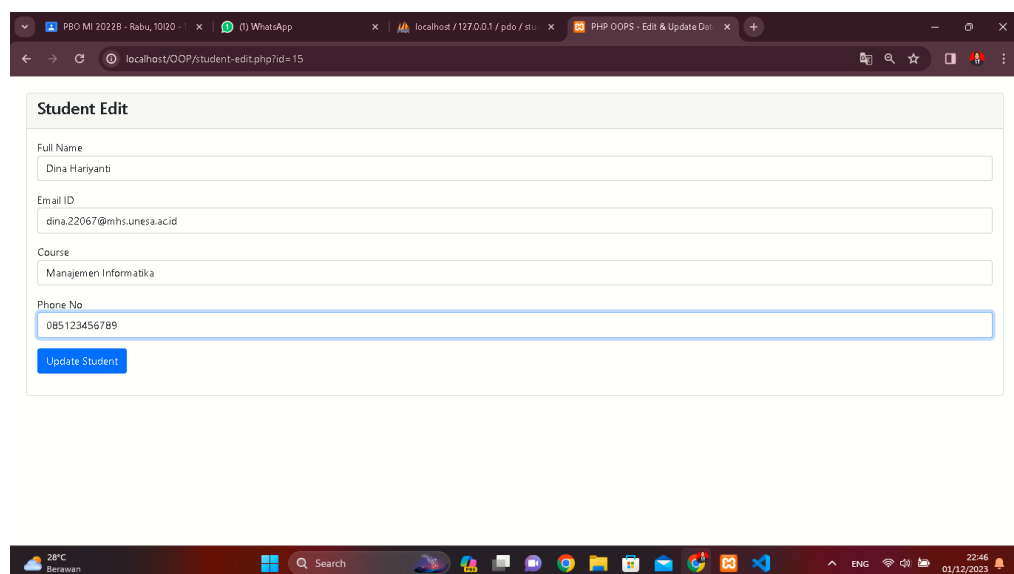

2) Menambah Data Mahasiswa

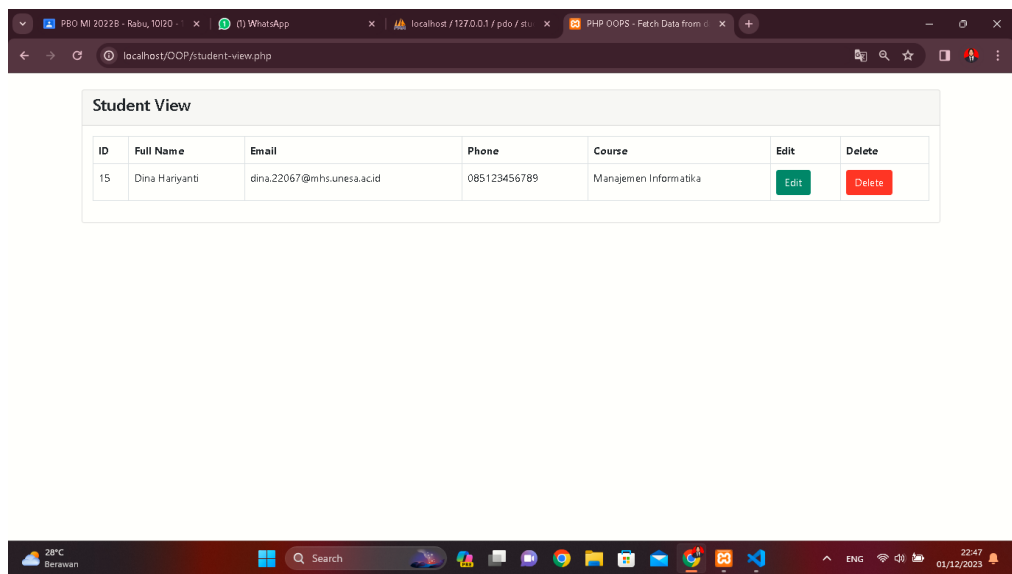

3) Tampilan Setelah Data Ditambahkan

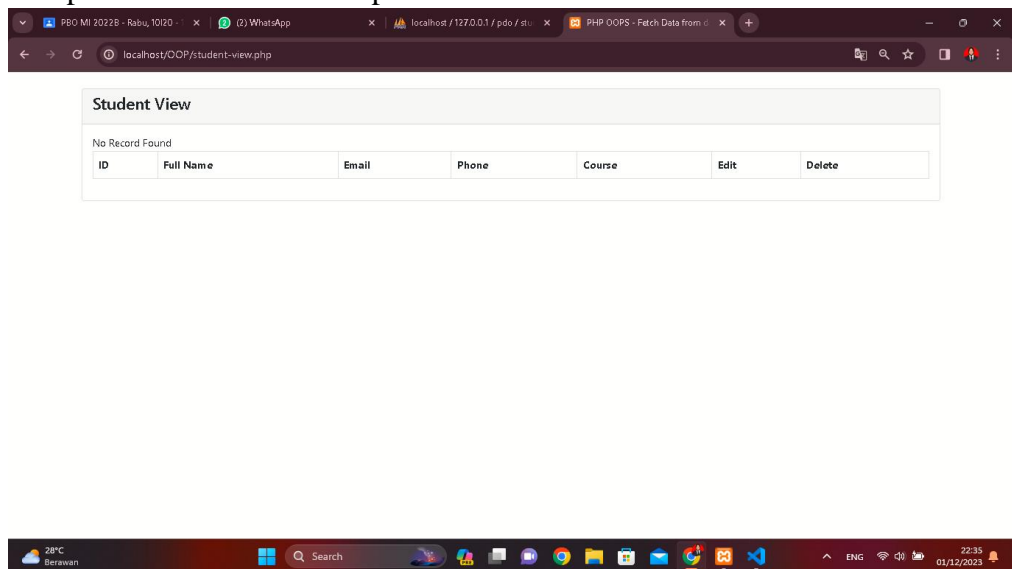

4) Mengedit Data (Update)

5) Tampilan Setelah Data Diedit

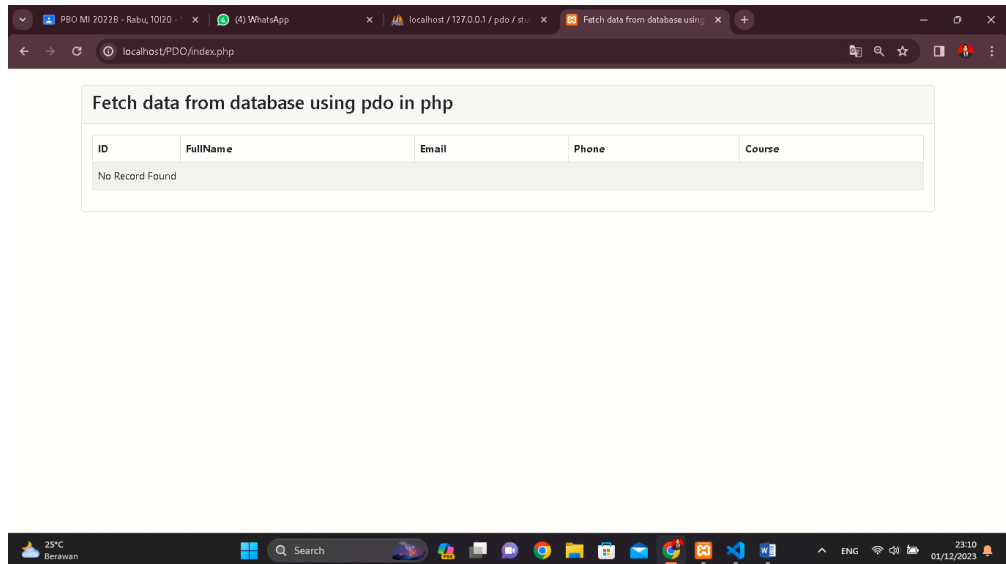

6) Tampilan Setelah Data Dihapus

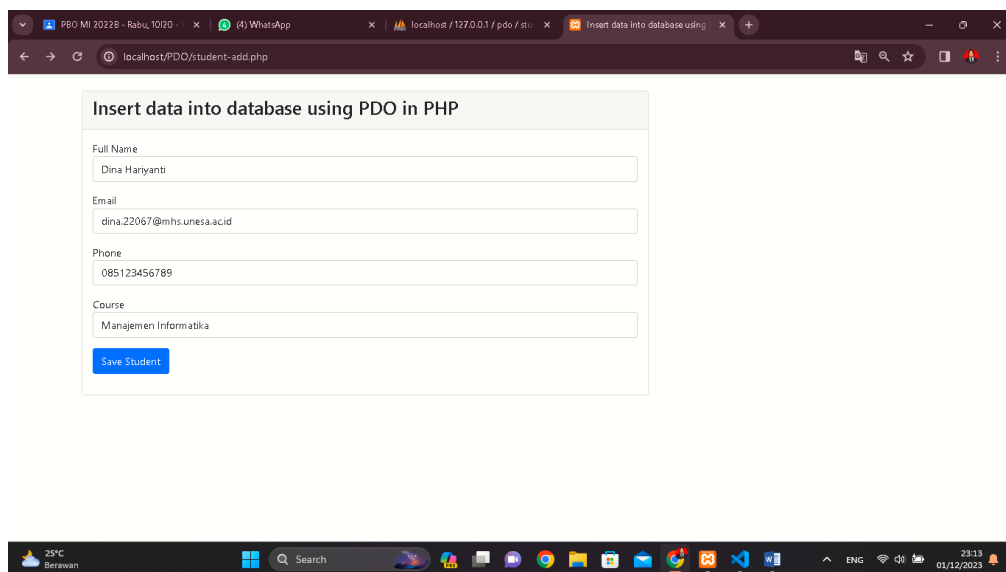

B. PDO

1) Tampilan Awal

2) Menambah Data Mahasiswa

3) Tampilan Setelah Data Ditambahkan

Inserted Successfully

Insert data into database using PDO in PHP

Full Name

Email

Phone

Course

[Save Student](#)

ID	FullName	Email	Phone	Course	
15	Dina Hariyanti	dina.22067@mhs.unesa.ac.id	085123456789	Manajemen Informatika	Edit Delete

4) Mengedit Data (Update)

The screenshot shows a web browser window with the address bar displaying 'localhost/PDO/student-edit.php?id=15'. The page title is 'Edit & Update data into database using PDO in PHP'. The form contains the following fields:

- Full Name: Dina Hariyanti
- Email: dina.22067@mhs.unesa.ac.id
- Phone: 085736727819
- Course: Manajemen Informatika

There is a blue 'Update Student' button at the bottom of the form. A red 'BACK' button is located in the top right corner of the form area.

5) Tampilan Setelah Data Diedit

The screenshot shows a web browser window with the address bar displaying 'localhost/PDO/index.php'. The page title is 'Fetch data from database using pdo in php'. The table displays the following data:

ID	FullName	Email	Phone	Course	
15	Dina Hariyanti	dina.22067@mhs.unesa.ac.id	085736727819	Manajemen Informatika	Edit Delete

6) Tampilan Setelah Data Dihapus
